

## Passenger/Before Takeoff Briefing

### Passenger Briefing:

1. Keep your seatbelts fastened at all times.
2. If I am talking on the radio, remain silent.
3. Doors are the primary exit, the windows are secondary.

### Before Takeoff Briefing: Engine Failure

1. During takeoff roll:
  - Abort the takeoff
2. After takeoff with runway remaining:
  - Land on the remaining runway if able
3. After takeoff with no runway remaining:
  - Below 1,000 feet -
    - ◆ pick a field in front of the airplane and land
  - Above 1,000 feet -
    - ◆ assess the situation. If able, turn around and land on the runway
